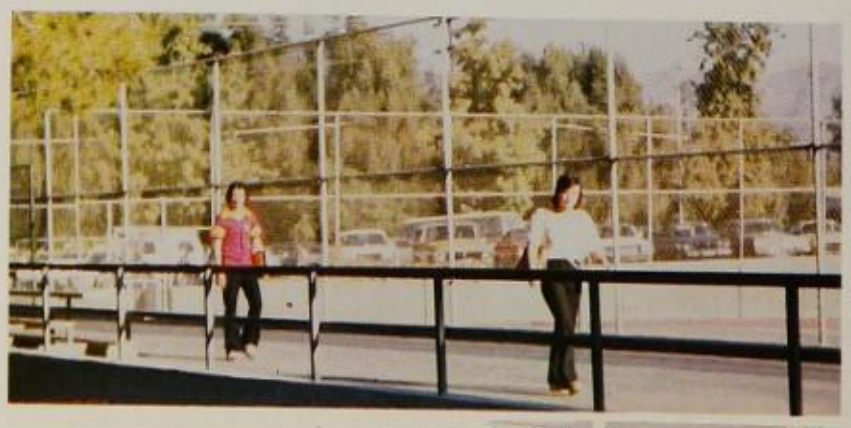
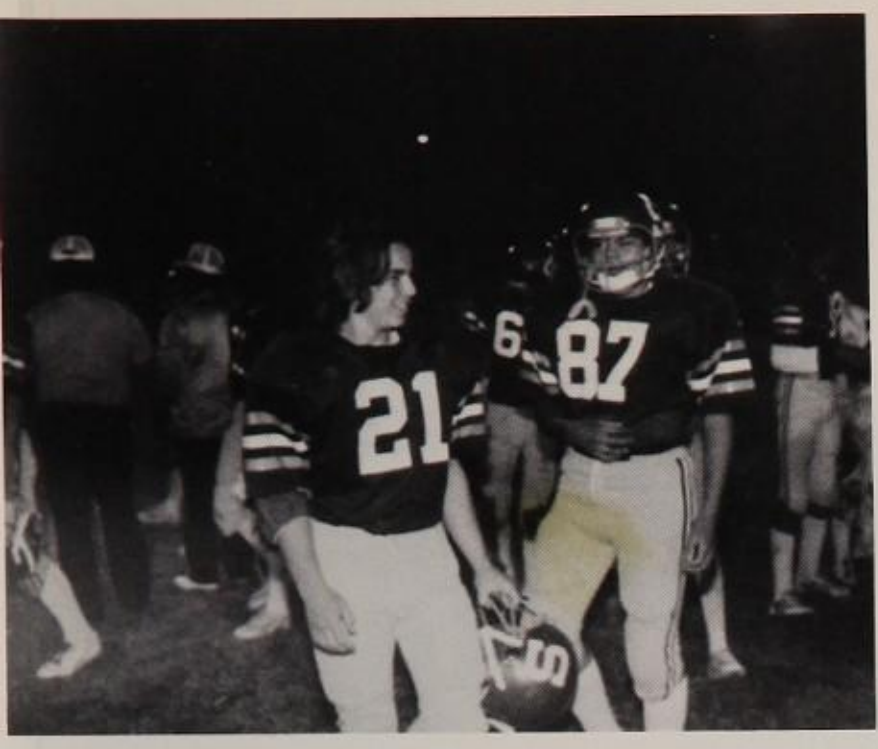
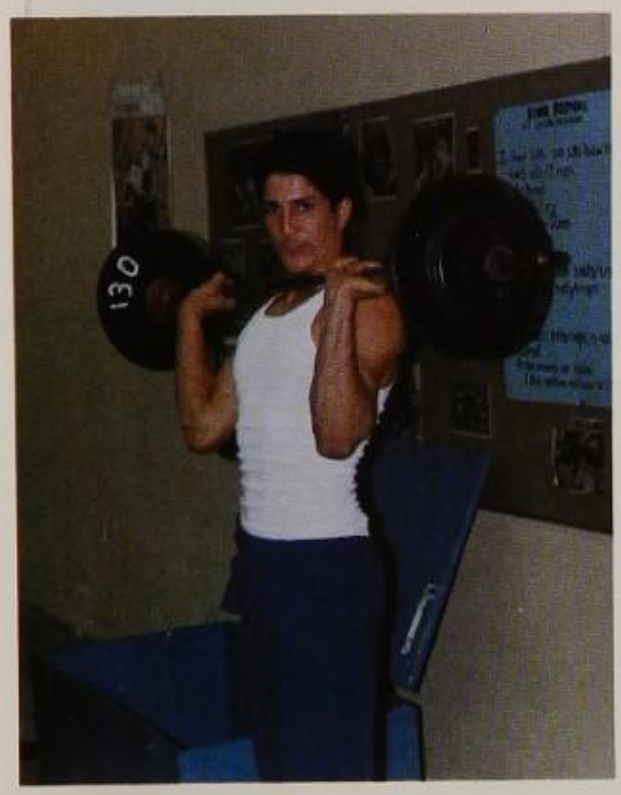
The value of a High School education must be measured in experience rather than knowledge.







Uncertainty about our futures may make your High School years, but this has been a constant dilemma for High School Seniors. When it's all over you'll look upon your High School years with fondness.

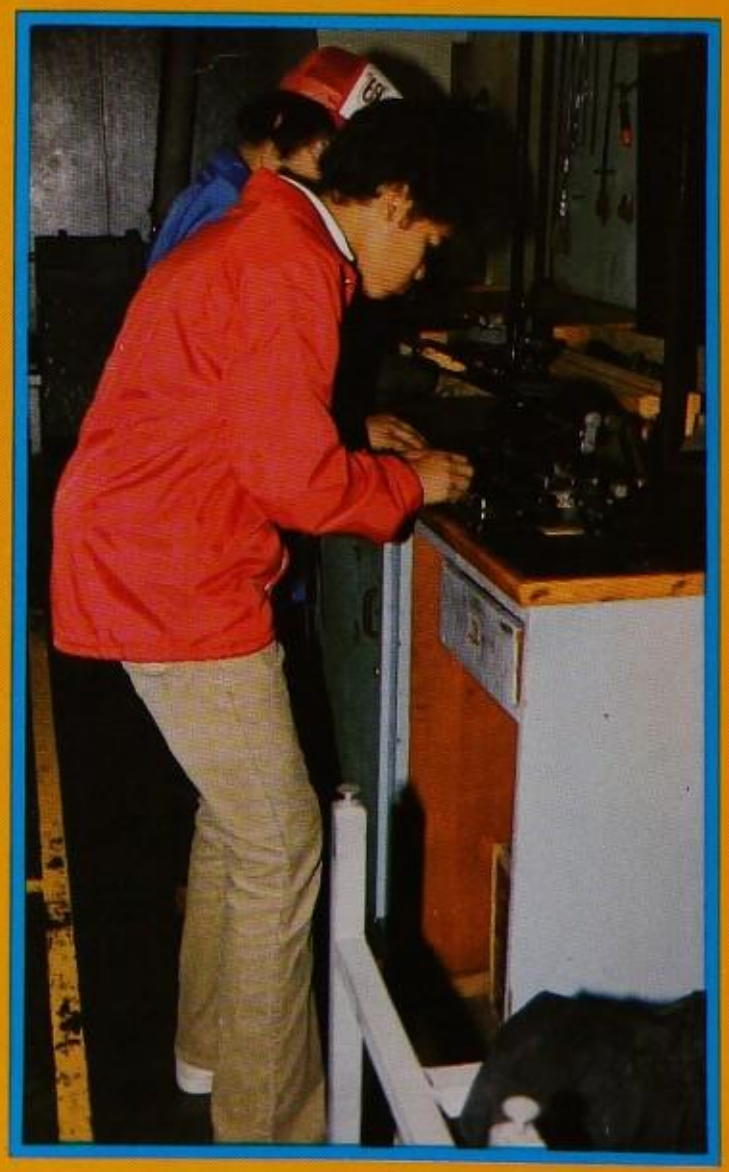
GO DODGER BLUE

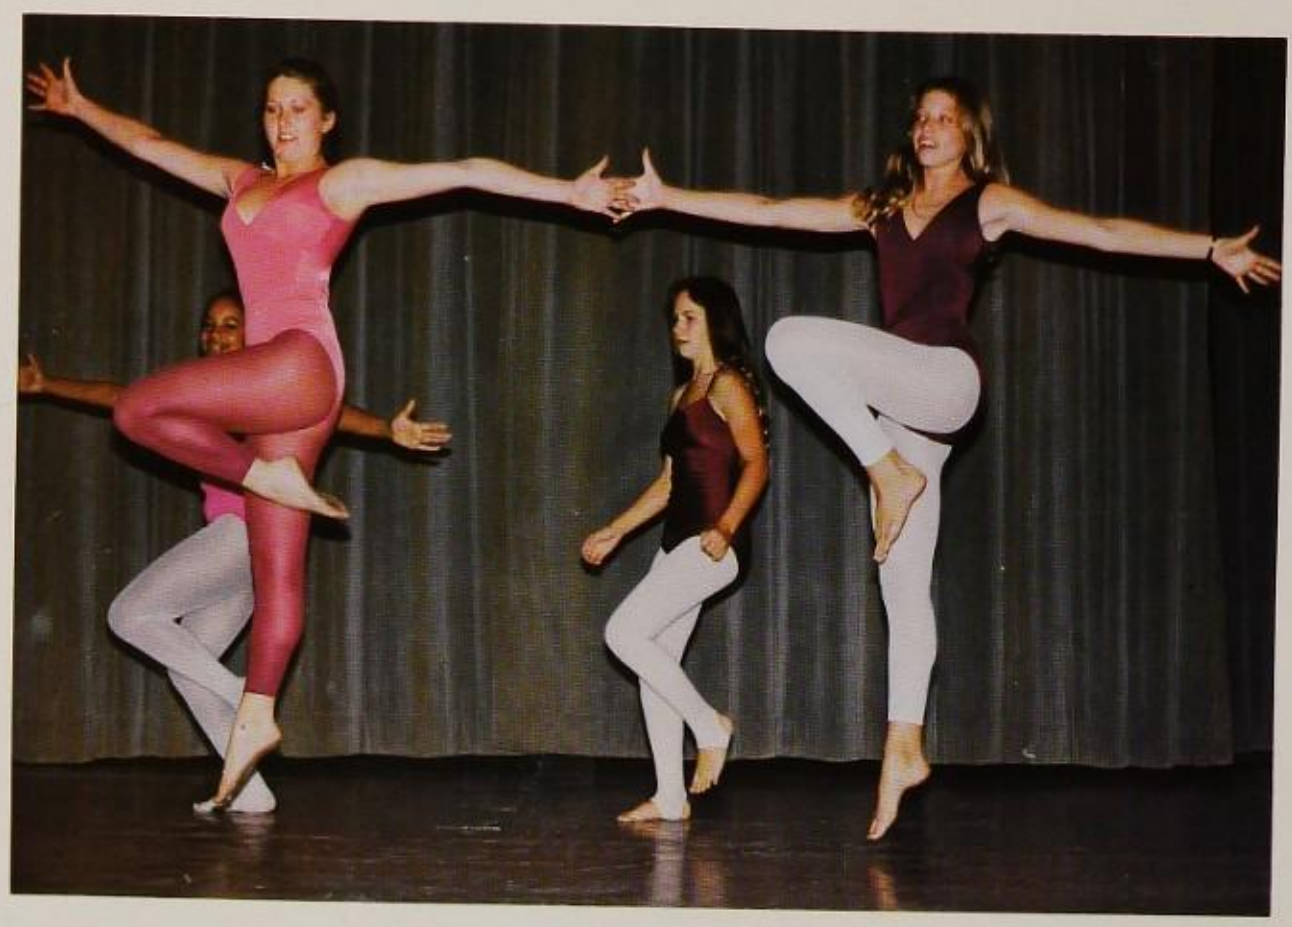


As we venture through our Senior Year we must be able to put what we learn into perspective. Things that seem terribly important are nothing more than an illusion, and the things you ignore come back to haunt you.

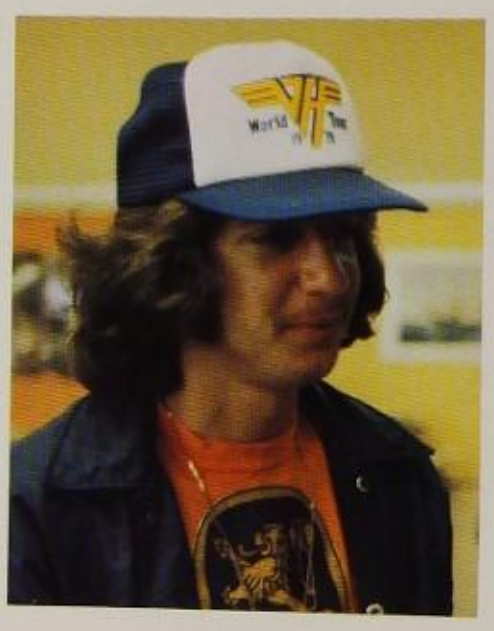
# SENIORS-81

An Epitaph for John Lennon

John Lennon and the Beatles influence had a profound impact on American society. The time at which the Beatles hit the music scene in America, we were looking for something to idolize again. It was 1964 and America is trying to get over the shock of President Kennedys assasination. The impact of the death of one of this countries most popular presidents, is probably best put by Patrick Moinahan, when told of his death. "We'll laugh again, we'll just never be young again." The Beatles and John Lennon let us laugh again.



# SUPERSENIORS OF 1981



Your Senior year is a mad rush of faces and events that blind you from really seeing. Slow down and look around at the people you've shared this past year with.

Your Senior year seems to be the culmination point of all your hopes and dreams. It's your last year before graduation and FREEDOM!! You know everyone and everything is coming up roses. This is how your senior year should be! Everyday filled with love, fun, and the joy of laughter. May we all look back in years to come and remember it as such.

We are Prestigians, and seekers of youth.
We reign victorious in our youth.
Though age and duty may bring a sigh,
Destiny's path leads us to the sky
Where we'll build our castles in the air
And never admit defeat or know despair.

Most Athletic

There is only one day in the school year when the Senior class can be seen pajama-clad and converging on the Social at 7:30 a.m. That's right-the morning of the traditional Senior Breakfast. This year the Breakfast was held on February 18 and though not many people attended in their pajamas, spirits were as high ever. After a sumptuous breakfast served by the cafeteria, the entertainment and the laughs began! Seniors were treated to a chorus lined version of "Happy Radio" performed by the Knights of Sparta and when Lisa Bodwell sang "Where Do The Children Play", four mysterious children appeared to play and dance on stage. Awards were then presented to winners of the Senior Class Poll. Parts of the awards ceremony proved to be as funny as the entertainment!

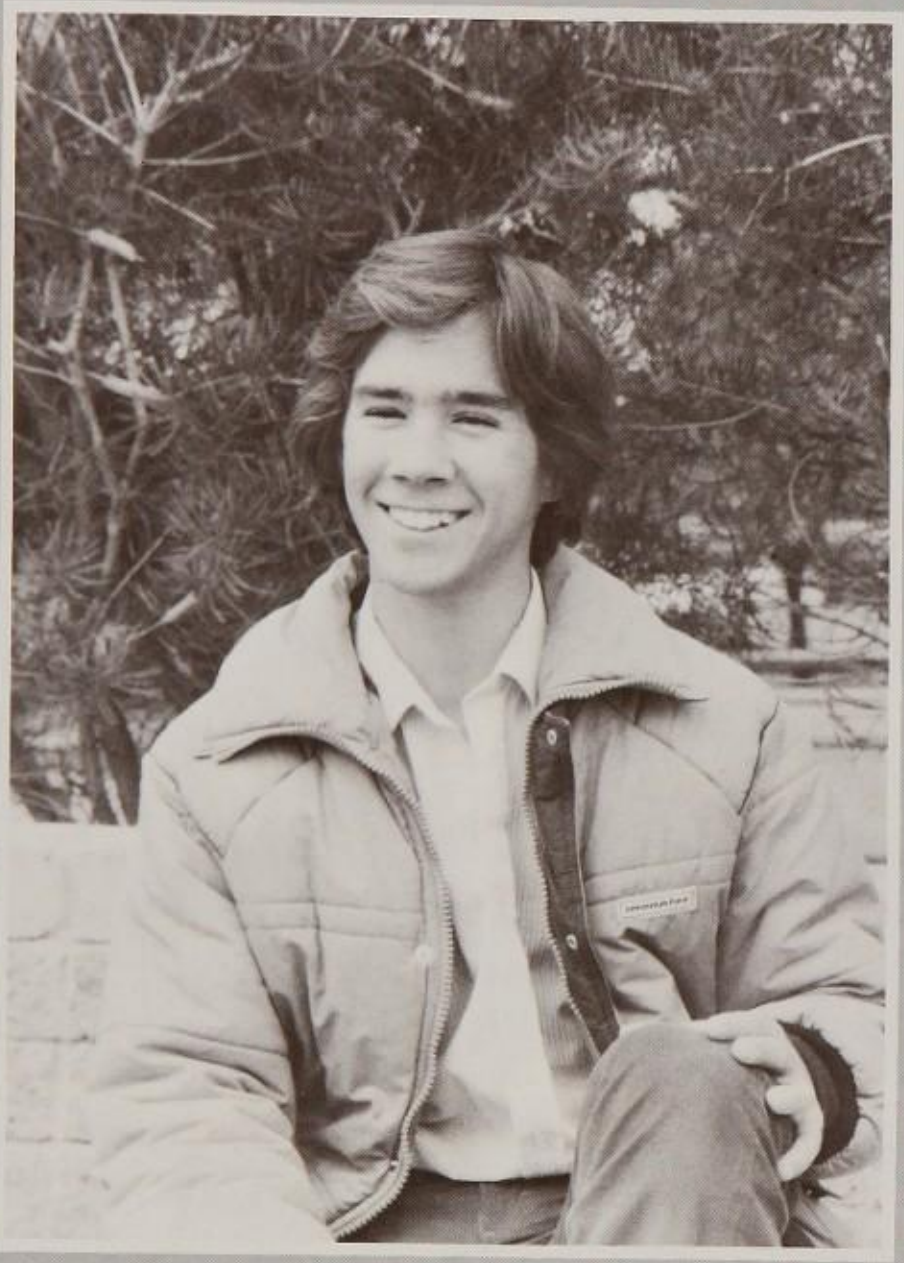
# FOREIGN EXCHA



Hisako Saito- "Japan is a tiny country. Where everything is different. We have original culture which you know from 'Sho-gun' on t.v.

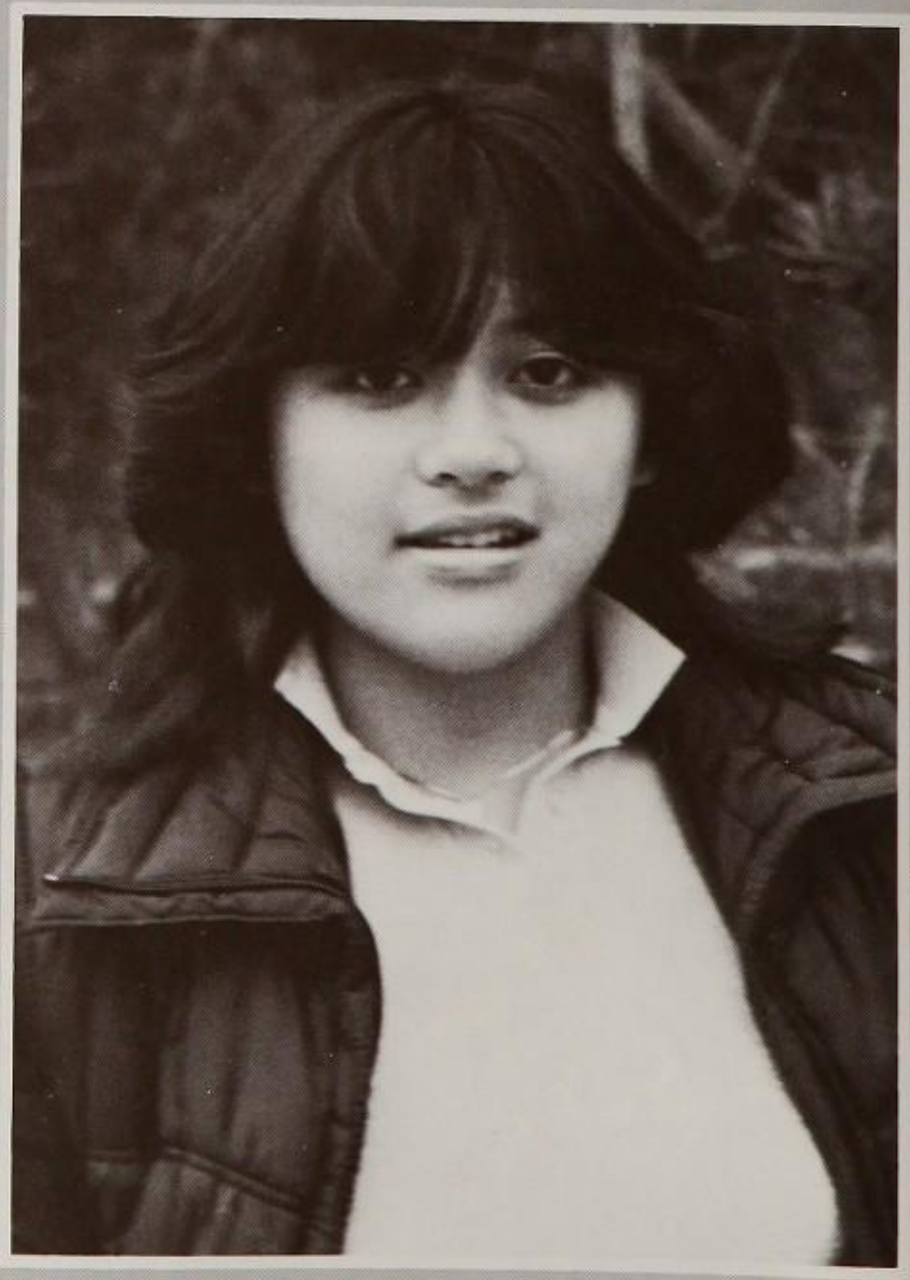
The biggest difference is food. You know we eat fish—raw fish. Everyone thinks our food is gross and bad, but raw fish is really good! You don't know how good it is!

At school, we have to wear uniforms. We can't use make-up, pierce our ears, or dance. Why not? I don't know. I guess our teacher thinks that school is for studying, not dancing or make-up.

Japan is so crowded; except for 'Hokaido Island' which is a northern island. We have small cars since the road isn't very wide. And gas is expensive, so a small car is very useful.

Japan and America are different; but I like both and I'm really enjoying it here!"

Sayonara everyone!!



Daniel De Asis- "If you ever have a chance to see Spain you'll find it is not much different from California. The landscapes are quite similar and people try to have as much fun as possible; same as here. The difference is that we don't get it. In Spain schools are just places where you go to study, and nothing else. We don't have any kind of activities, like interscholastic sports. The only sports we can practice are in a P.E. class, once or twice a week; with a teacher controlling everything we do.

But when the weekend comes, we organize parties, go to discos and are totally free to do something that you can't (theoretically) here: drink. In Spain there is no age limit for drinking, but we don't have the problem with alcoholism that I have noticed here.

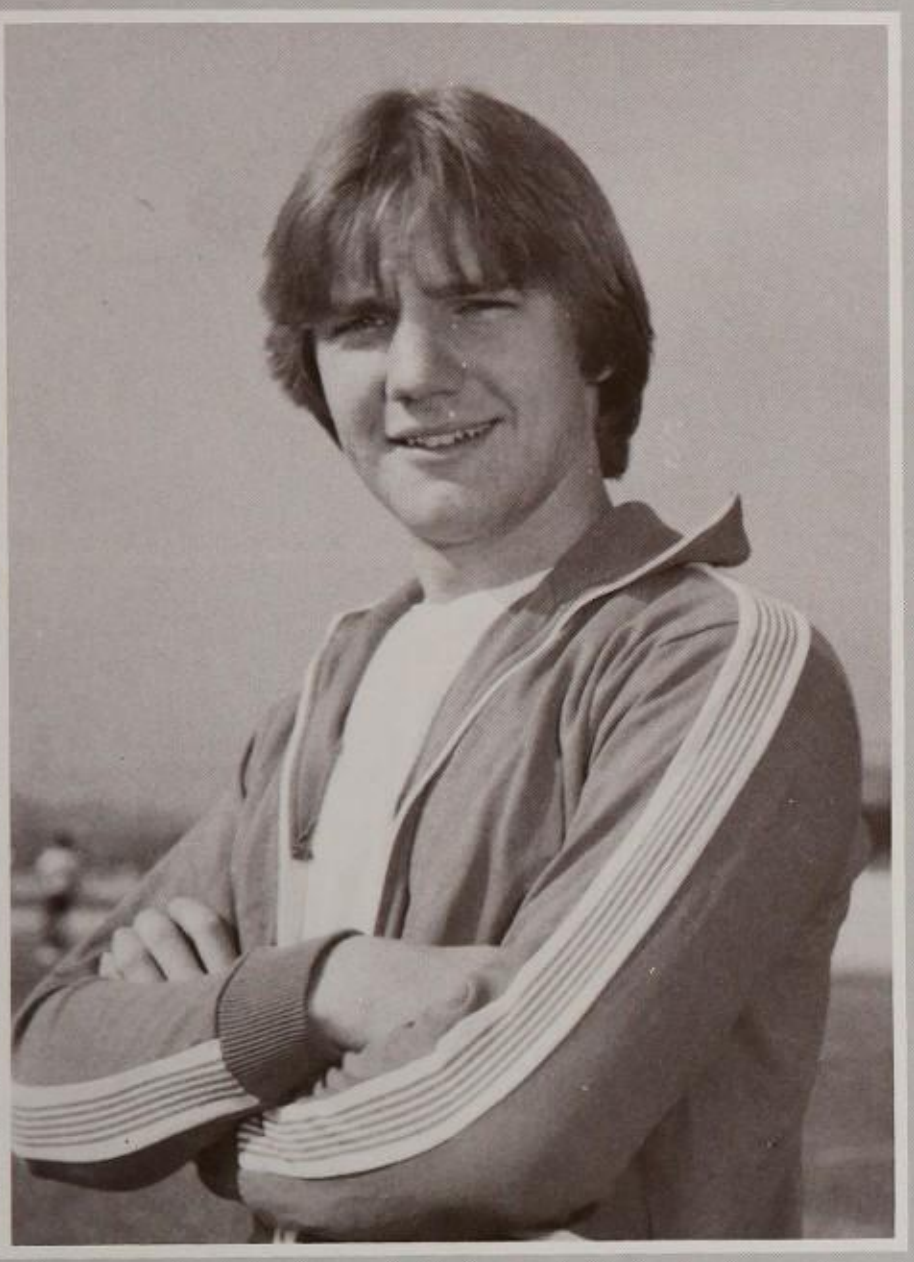
I have noticed too that life here is much easier, because in Spain, with unemployment of 12%, nobody gives jobs to the young people. And not only that, but if you decide to quit school, and you are so lucky that you get a job you almost won't be considered in the society. That means that you have to keep studying and make a career or get into business and try to make money that way, because if you get into any other thing you won't be able to live well.

Something else about Spain is that prices are so high that it is really strange to find families with four or five cars like here, and most of the families can only afford one car that they'll use for years and years.

To give you an idea I can tell you that you don't pay less than $15,000 for a Harley-Davidson and over $12,000 for a Volkwagen "Rabbit."

And that is Spain, that country in the corner of Europe that I'm proud of."

# NGE STUDENTS



My name is Bjorn Andersson, and I am an exchange student from Sweden. I've noticed that U.S.A. and California is quite a lot different from Sweden, my country. Sweden has eight million people and Sweden is about the same size as California. Other significant differences are the climate, the school system, the sports and the Government. I'm used to cold winters with a lot of snow and coudy, rainy summers. My Swedish schools were harder. My graduation here will be my second, because we graduate after ninth. Sports like baseball and football aren't that popular in Sweden as soccer and snowskiing. Eventually, our political system is different. We have a democracy with more than two parties and we have a King and a Queen instead of a President.

I really have enjoyed my stay here in California and I've learned a lot about you and your country. I do hope that I can see it again.

Claudia Streva- Brazil is the largest country of South America with about 120 million people. It could be called the "Land of Coffee" for nearly half the world's supply comes from there.

Like the United States, Brazil has been a melting pot of races and cultures. As a result of the country's colonization by Portugal, the national language is Portuguese, and Catholicism is the predominant religion. However, there is absolute freedom of religion and, as a result, many other religions have been increasing their numbers at a tremendous rate.

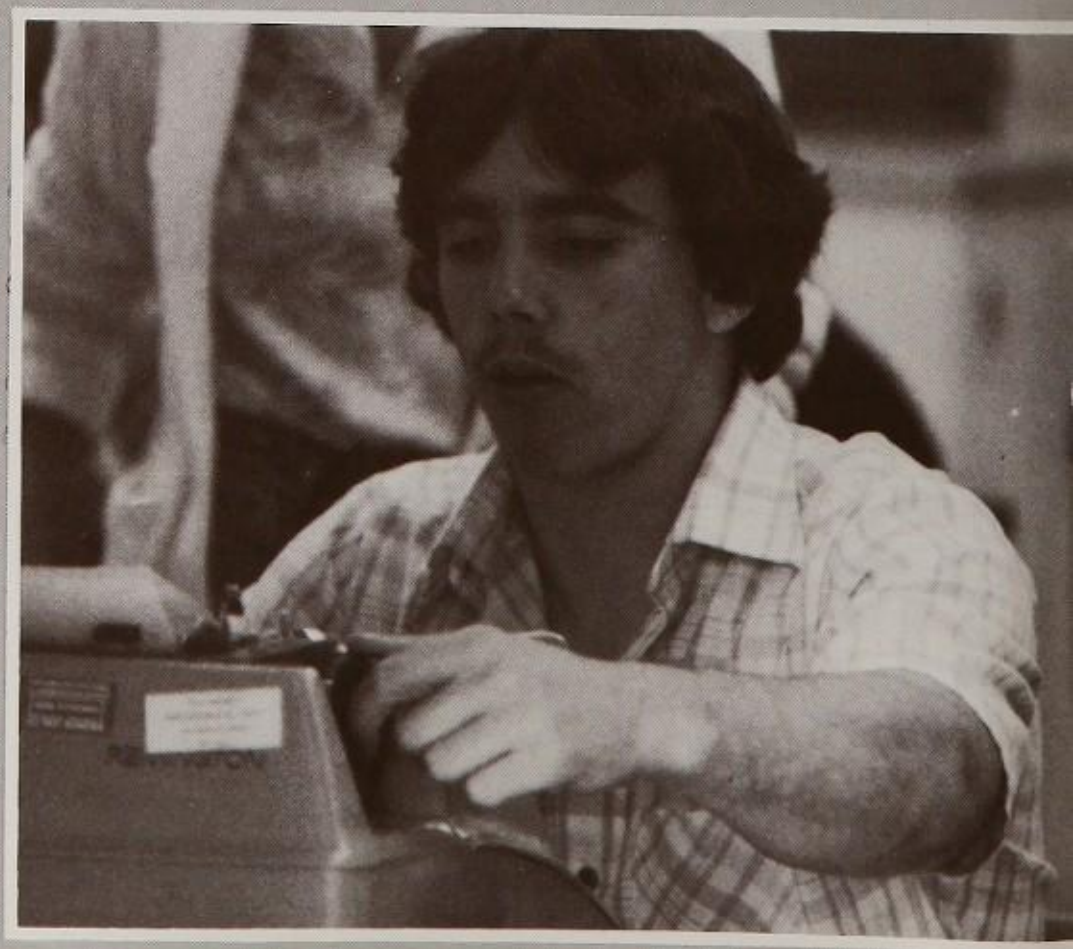
Brazil was also settled by immigrants from Italy, Germany, Japan and Poland, all of them living and working together in harmony without racial strife.

Brazilian school systems are very different from here. Schools there are largely private and don't offer extra-curricular activities. When a student wishes to go to a university, he or she must study hard. There are limited spaces in the universitys and entrance exams are very competitive and education is a serious proposition.

But Brazilians try not to be too serious. This is a nation of young people. Soccer is a national passion. Music is the second language. Brazilians like beaches very much.

We have big Carnival, which occurs four days and nights before Lent. It means increased party-going throughout the country, with especially exuberant festivities taking place in Rio de Tanero. This is my favorite!

Auto mechanics, metal, yearbook and typing are just a few of the useful skills we develop. With these few classes we are ready to start a career in June of '81.



Our in-class academics are a fun way to relax during a hectic schedule. Spicy Spartan, cooking, Science labs give us something other to do than study and do desk work.

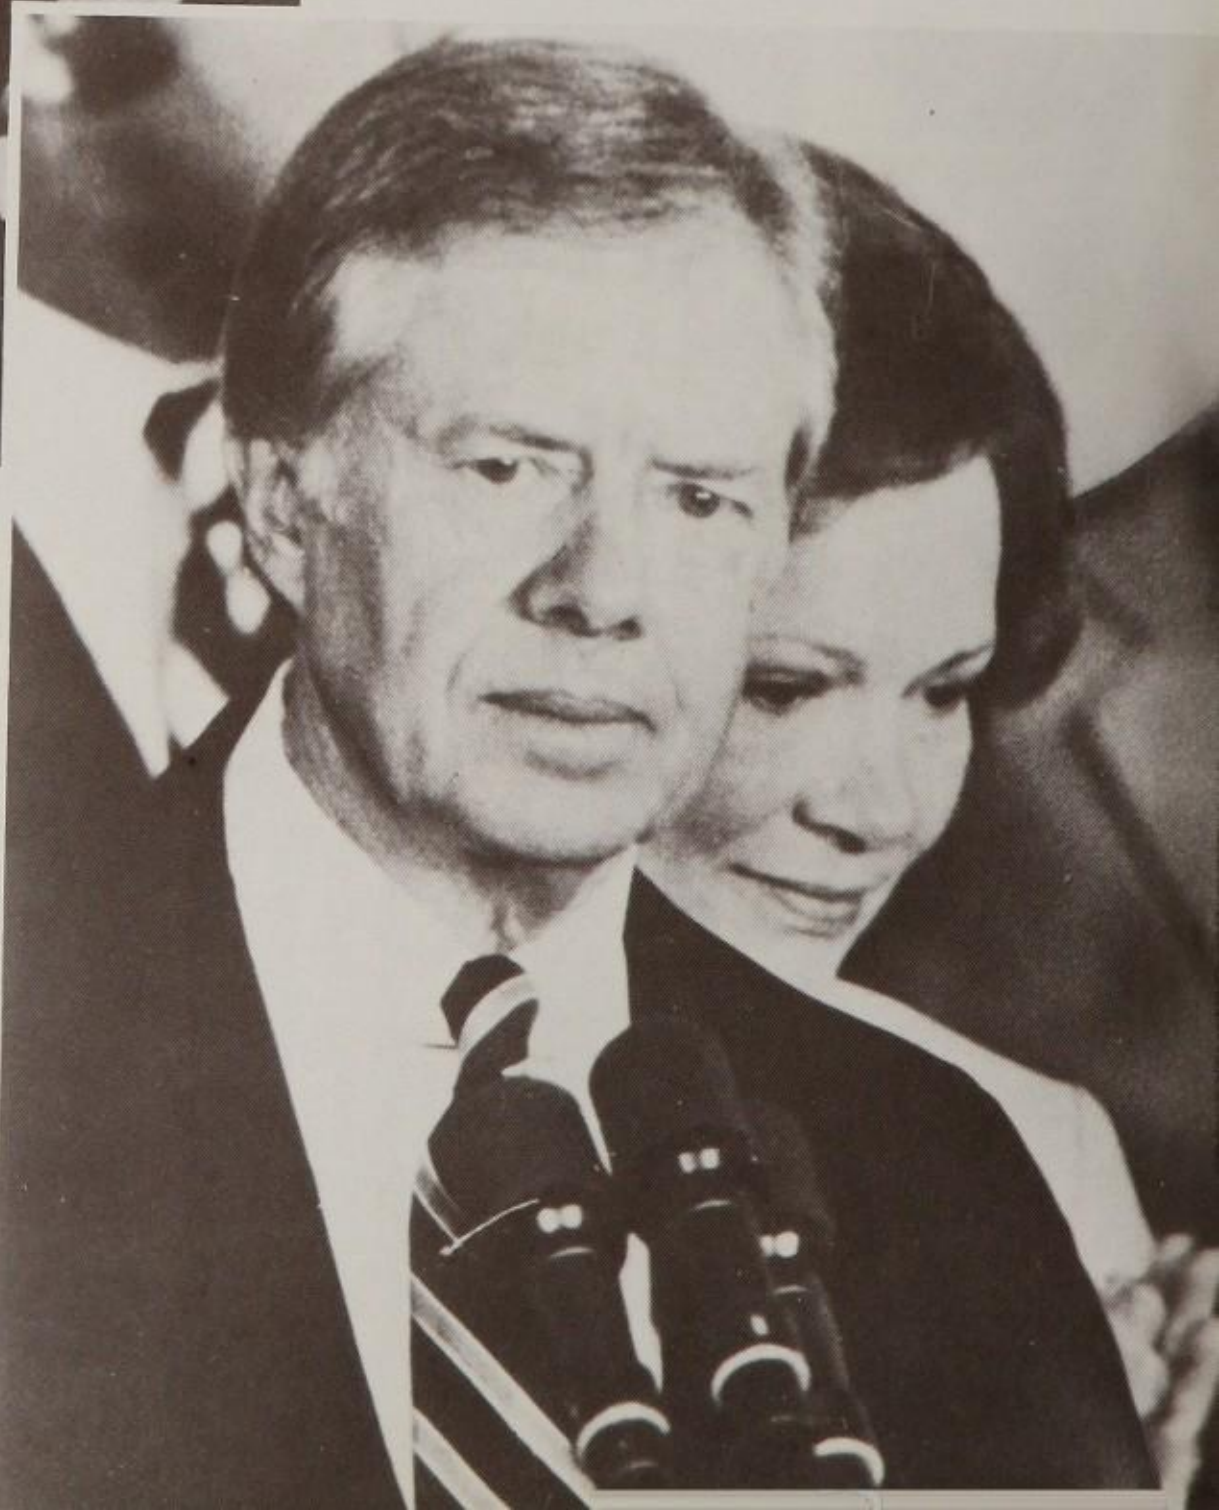
## TO THE VICTOR GOES THE SMILES

Jubilant former California governor, Ronald Reagan, welcomes his supporters after announcing his election victory. The voters gave Mr. Reagan a majority in a three candidate election and cast him in the role of president. Mr. Reagan brought with him to office a new program designed to solve the country's economic woes.



## TO THE LOSER GOES THE SORROWS

Dejected, rejected former President James Carter concedes defeat in his attempt to be re-elected to the office of president. He wished Mr. Reagan well with his new program; after all, he had had a new program four years before. Sorrowfully, he promised to help Mr. Reagan's take over of the government as smooth as possible.

Nothing like sacking the quarterback. . .Notice the elation.

The 1980 Sylmar Football Season started off well. We tied Manual Arts 6-6 in a scrimmage, however, we "out hit" them.

In our opening game Belmont tied us 7-7; as Bill Gordon threw 35 yards to Dave Crimes for the Spartan T.D. Belmont's T.D. came on a fumble recovery and run. We also had the winning T.D. called back.

Next, we beat North Hollywood 21-20, ending a losing streak dating back to 1978. Gilchrist and Fournier made the key stop on the 2 point conversion with less than 2 minutes left in the game.

For the rest of the season we were in every game, but inexperience by replacements for injured starters made it hard to avoid mistakes. Losing people like "Cookie" Gilchrist, (N.H. game) Bill Gordon, (V.H. game) Deon Giuliano, (Before Season) Dwayne Black, (moved away) plus 6 other starters hurt team consistancy.

Players such as Danny Jordan, Greg Sentner, Byron Carter, Jim Kopanski, Dave Crimes, Casey Graham, Danny Ramirez, Ricky Garcia, Steve Arlequeeeuw, Daryll Robinson, will be back in 1981 to make a successful season.

In 1980, Sylmar lost 2 games by 1 point in the last minute and was tied in another game. We could have easily been 5 and 3 and gone to the playoffs. The program is established. I want to thank seniors like "Cookie" Gilchrist, Dave Fournier, Steve Coulter, Bill Gordon, and Victor Nelson.

For the Sylmar High School Spartan Varsity Basketball Team, the season was not a season of dominating the East Valley League, it was not a winning and over-powering season, but was, in fact, a season of regrouping and re-organizing the talent for the following year. Returning from the varsity squad are center, John Jesson, forward, Ken Norris, forward, Todd Christenson, and Honorable Mention guard, Robert Smith. As far as the season goes, it was a battering and injury-filled year for the courageous Spartans. Former J.V. M.V.P. Sheldon Hanagami suffered a broken collar-bone and missed more than half the season. Also injured were former J.V. captain, Tony Aguirre who was hampered by a sprained ankle throughout the season, Ken Norris also with a bad ankle, and Todd Christenson, with a bad knee. The Spartans, however, overcame their injuries and fought back to post two victories late in the season including an exciting overtime win against Verdugo Hills. Pacing the Spartans, was M.V.P. Robert Smith and captain Jon Stovall, while Todd Christenson and Danny Marquez provided the tough rebound strength. Todd Christenson recieved the Most Inspirational Award, as well as free-throw % and field-goal % leader, Danny Marquez also recieved the field-goal % leader award, while Tony Aguirre led the team with assists. Jon Stovall led the Spartans in rebounding and Robert Smith with scoring average, as the team recieved strong support from Bill Volkoff, and Danny Williams. Recieving Scholar-Athlete Awards were Sheldon Hanagami with a 3.6 G.P.A., Jon Jesson with a 3.5 G.P.A., and Danny Marquez with a 3.2 G.P.A.

For 18 yrs it
been great. If it don't
work you could probably
fit it. Good luck in whatever
you do. If every parent had
half the amount of trouble with this
we have had with you, this would
be a great world to live in.
Good luck
Ye ole man

He who binds to himself a joy
Does the winged life destroy;
But he who kisses the joy as it

Lives in eternity's sunrise.

I can't believe we are finally graduating. We've finally made it. I wish you the best and I'm glad you came out of the accident you had this year alright. Live life to the fullest because you only get out of life what you put into it. Live each day as it was the last day of your life. Live your life to the fullest! Take Care and hope to see you again sometime.
